

Oli Walker

FRONT-END DEVELOPER

Personal Profile

Product focused Front End Developer who loves building with React, Typescript and GraphQL.

Strong knowledge in React and React frameworks like Next.js, Gatsby, also CSS in JS with Styled Components and creating Accessible Applications.

Enjoys unit testing with libraries such as Jest, Enzyme, React Testing Library and E2E and integration testing with Cypress. Comfortable working in the Back End in Node, Express, Koa, and has used relational and non-relational databases.

I spend free time learning new skills with online tutorials and side projects to keep on top of ever advancing JavaScript Tech. I push to adhere to best practices, and to keeping code clean and DRY.

Technologies

JavaScript - HTML - CSS

React	Jest
Typescript	Enzyme
GraphQL	RTL
Rest	Cypress

Next.js	Accessibility
Gatsby	
Apollo	Docz
Redux	StoryBook

Node	Scrum / Agile
Express
