Oli Walker

FRONT-END FOCUSED DEVELOPER

Personal Profile

Product focused Front End Developer who loves working in empowered teams and building and shipping high value software.

Strong knowledge in Typescript, React and React frameworks like Next.js, and also CSS in JS with Styled Components and creating Accessible Applications.

Personal projects in tech that interests me, including Vue, Svelte, Python, AWS lambda.

Spends free time cycling and hiking in the mountains.

Previous Life

A previous background in adventure sports crafted my ability to work effectively and efficiently with a wide variety of people, whilst falling naturally into leadership roles.

Work Experience

Aroov   aug. 2020 - now

A startup to encompass and streamline the interactions of a tenant and property manager.

Architected and built 3 web apps and a component library alongside one other Front-end Developer.

Refactored and modularized existing GCP infrastructure for 3 enviroments using Terraform.

Refined Circle CI pipeline to include automatic on deploy and nightly E2E testing.

A change of team enviroment means I am currently working full stack with a Python / Django Backend and Postgress database.

Working with - TypeScript, React, Next.js, Redux, I18n

Ginetta   apr. 2019 - aug. 2020

A leading web design and development agency in Zürich. Working and having workshops with a variety of high profile clients on a wide variety of projects.

Collaborating with UX and UI designers in an agile, user centered design process and creating universal web apps to provide the best user experience.

Tutoring and mentoring design trainees to take first steps into web development.

Working with - TypeScript, React, Next.js, GraphQl, Apollo, Redux, I18n

Aktek   sep. 2018 - apr. 2019

A startup team of developers and data-scientists who aim to offer flexible solutions for data management and visualization for teams working in fragile environments.

Working with - React, Redux, Webpack & various data visualistion tools.

Education

Full Stack Software Engineering Boot Camp   2018
Over 1000 hours of training

Self Taught   2017-2018
